EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney, Mr. Ralph Gelling, on 16-MAR-2005.

The application has been amended as follows:

In claim 1, line 19, the phrase -- having non-uniform flow areas -- has been inserted after "preselected flow regions, said regions".

In claim 6, line 5, the phrase -- having non-uniform flow areas -- has been inserted after "divided into preselected regions, said regions".

The following is an examiner's statement of reasons for allowance:

Applicant's arguments with respect to a "plurality of distribution modules" is persuasive (claim 18).

In view of the above claim amendments, applicant's argument with respect to the flow in "the critical areas" (see paragraph bridging pg. 11-12) is persuasive (claims 1 and 6). It is also noted that the limitations added herein identifies the location of the distribution

Art Unit: 1732

channels as directing flow to the preselected flow regions of the die outlet where the critical distribution requirements have non-uniform flow.

Reasons for allowance with respect to claims 11-14 were set forth in the record prior to this Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Eashoo, Ph.D. whose telephone number is (571) 272-1197. The examiner can normally be reached on 7am-3pm EST, Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Colaianni can be reached on (571) 272-1196. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
